

Hotspot Kit Policy

1. Purpose

The Geneva Public Library provides mobile hotspot units and Chromebooks, bundled collectively as Hotspot Kits, to help provide equal access to information and educational resources available through the Internet.

2. Terms and Conditions

A Hotspot Kit consists of one mobile wireless hotspot device, one Chromebook, chargers for each device, a carrying case, and instruction manuals. When a patron borrows a Hotspot Kit, the patron's use of the equipment is available under the following terms and conditions. These terms and conditions are in addition to the standard Library Circulation and Computer and Internet Use policies and other terms and conditions described below for which the user is responsible.

In order to borrow a Hotspot Kit, patrons must have an OWWL library card in good standing. Upon checkout, Library staff will confirm, in the presence of the borrowing patron, that all items are present in the Hotspot Kit. The patron must sign the Library's Hotspot Kit Agreement before a kit can be checked out. Patrons under age 13 must have the parent or guardian listed on their library account sign the agreement. Only one Hotspot Kit may be borrowed on a patron's account at any one time.

The loan period for the Hotspot Kit is 28 days with two renewals.

The Library reserves the right to deactivate the devices in a Hotspot Kit for reasons including but not limited to: overdue status, misuse or damage, and necessary maintenance.

3. Return Procedure

Hotspot Kits must be handed to a staff member at the Reference Desk so that a staff member can verify that all components of the device(s) are accounted for before checking it in from the borrowing patron's account. They may not be left at the desk if it is unattended. If a desk is unattended, patrons must find a staff member to assist them before returning the device.

- Hotspot Kits returned to an unattended desk are not considered to be formally returned and may be subject to additional fees or replacement charges.
- Hotspot Kits may not be returned in the book drop.
- Hotspot Kits must be returned to the Geneva Public Library only, and may not be returned to any other library.

The Hotspot Kit will not be considered returned until all components of the kit are returned.

4. Fees

Overdue fines for hotspot kits are \$1.00 a day up to a maximum of \$400.00, and start from 1st day overdue. The patron will be charged replacement fees for any items not returned, or for items returned damaged. The replacement costs are as follows:

Hotspot Device	\$50
Hotspot Charger	\$25
Chromebook Device	\$300
Chromebook Charger	\$30
Hotspot Kit Case	\$75

Devices returned in the book drop or to another library may be subject to an additional fee of \$5.00.

5. Appropriate Use

Borrowers are expected to utilize the devices in a way that minimizes the likelihood of damage, loss, and theft. By borrowing and initiating use of the Library's Hotspot Kit, the user agrees to abide by the Library's policies and rules, and agrees to hold the Library and its agents harmless from any and all claims, losses, damages, obligations, or liabilities, directly or indirectly, relating to the use of the Library's hotspot and internet access provided by the Library. Deliberate altering of any files or modifying the configuration of Library-owned equipment is strictly prohibited.

Internet service relies on cell tower technology and coverage. Service outside the continental United States is prohibited; any fees associated with use outside of this area will be the responsibility of the borrower. User experience can vary based on location. The Library is not responsible for personal information shared over the internet or for information or websites accessed. The Library is not responsible for any liability, damages, or expense resulting from the use of the Hotspot Kit. A hotspot can provide internet access for up to two devices at a time.

Parents/guardians are responsible for the use of the Hotspot Kit by minors. Unlawful use of the Internet or use that violates the Library's Computer and Internet Use Policy is prohibited and may result in the loss of privileges. The Library employs the use of filtering software to assist in prohibiting access to material that is obscene, contains child pornography, or is harmful to minors and to comply with federal law. However, users should be aware that the nature of the Internet precludes any filtering software from being fully effective.

6. Chromebook Content

A Chromebook is not the same as a Windows or Mac laptop. Chromebooks use an alternative operating system called Chrome OS. Programs users can typically install on Windows or Mac operating systems may not be compatible with a Chromebook. The Chromebooks utilize the Google Chrome Internet browser as well as a suite of other Google web applications which allow you to create and share documents, edit photos, listen to music, and more.

The borrowable Chromebooks are configured using management licenses, which enable the Library to lock and reset the devices remotely and to utilize the web filters present on public computers within the library. The Chromebooks will not retain any saved files or customization once they shut down. Users are encouraged to save work on individual web accounts, or when possible, on an external drive.

For assistance in the operation of the Library's Hotspot Kits, borrowers may call the Library during normal business hours.
